## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance:
  - The primary reason for allowance for claims 1-18 is that Applicant's claimed invention includes control means that cause the nozzles of the same kind to eject ink simultaneously and sets the number of ejections from the large ink ejection volume nozzles greater than the number of ejections from the small ink ejection nozzles while causing the same kind of nozzles in the nozzle columns of each ink color to perform a preliminary ejection operation at a time. It is this limitation, expressed in the claimed combination not found, taught or suggested in the prior art, that makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The Examiner makes of record that the previous spec and claim objections dated 05 April 2005 are withdrawn in view of Applicant's remarks.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kristy A. Haupt whose telephone number is (571) 272-8545. The examiner can normally be reached on M-F 7:00-3:30.
